

Packing and Transportation Box

Description

- incl. folding lid, with hinges
- with shackle to hook in a padlock
- with two flush-mounted handles on the lid
- with 6 steel casters
heavy-duty polyurethane lining with integrated caster and live ring brake
- The Packing and Transportation Box can be moved individually and without any tools.
The ground of the Packing and Transportation Box is strengthened so it can be lifted with a hand pallet truck or stacker, e.g. for loading onto a truck.
- The single components of the Aluminium Gantry Crane can be stored

systematically and completely, useful preserved as well as space saving transported.

- The user „on side“ always does have a complete Aluminium Gantry Crane System on hand.

The Packing and Transportation Box will be adapted to the particular Aluminium Gantry Crane (with accessories).
